## ASSISTCommerce Suite

### Demand Forecasting

You need the tools to know what you have sold, what you have bought, and what do I need to buy for tomorrow. The *ASSISTCommerce Suite Demand Forecasting* module tells you exactly what to buy and works closely with purchasing to streamline the process.

#### Demand Forecasting

- Store demand curves
- Forecast based on sales history
- Forecast based on offer history
- 'Work with' capability
- Calculate demand curve by item
- Calculate demand curve globally
- Calculate demand curve by product line
- Calculate demand curve global and product line
- Calculate demand curve global and item
- Stack Curves
- Concatenate curves
- Feed purchase orders
- Feed requisitions, auto requisitioning
- Feed reorder points and quantities

#### Reporting

- Operational reports
- End user reports
- Management reports
- Store curve and demand reports
- Sales history report
- Item demand report
- Keycode demand report
- Offer/source demand report
- Item attributes demand report
- Product line demand report
- Global demand report
